Subject: RE: Pickup Project
Mr. Stone asked about meeting Thursday. Do we want to meet together before meeting with him? I would expect him to want a later morning meeting, probably right before or after his SEIO staff meeting. I'll ask.
I'll be in around 0800 and stay until they throw me out at 1500.

Message-Id	<806e8428599f4baf8cdf4dc0ff72269e@DODIG.MIL>

Absolutely. I was agreeing with your previous email. I think that would make a pretty straight-forward project to start with. (b) (5) .

Subject: RE: [Non-DoD Source] more UFO....s
Interested in going into the office Thursday? I'll be in both tomorrow and Thursday, since that is when the 14th floor is open.
I asked the other PDs about coming in. (b)(6) and (b)(6) can both come in Thursday, and (b)(6) can too if (b)(6)
(b)(6)
I think we'd want to:
1- Agree on a proposed objective and basic methodology
2- Figure out who we can give up from our divisions that is willing to work a classified project and is capable and available.
Do you have any thoughts/preferences as to who manages it at the PD and PM level?

FYI - I would make a classified and unclassified fact sheet. Because you have access to the unclass open source, it would be a good idea to start there.
I've enclosed the unclassified Microelectronics Project Factsheet to see if it might help give to you ideas. The same format would be created on the classified side, but it would just be added/augmented with the classified in formation.
Some open source information I am currently reading up on the internet (I just pulled these quickly and saved the links):

(b) (6),
I am assigning you the responsibility for researching this topic. The AIG and DIG want to do an evaluation on this subject topic - UAP. There is a classified NDAA that discusses this, but I cannot send you the stuff until we get you indoctrinated and set up your computer accounts and work station.
Please work to develop a project paragraph and factsheet (aka project proposal) on this subject matter with information that you can find on the open source in the meantime. Once we get your workstation set up and you have access to the classified information, you can come in to work on the classified elements.
Last year I sent you an example of the project paragraph and factsheet (project proposal), please follow that guidance. If you have any further questions, let me know. I will be working side-by-side with you on developing this - we may also bring other personnel from the other Intel Divisions to assist, but I plan to have you take the lead.
Thanks,

Subject: UAP Proposal

Good Morning,

I wanted to provide an update on the UAP proposal. I am going in on Wed to look at the proposal and add my input. Initially, when I went in last week my computer was down so that took all day; however, I was able to add to the sharepoint my notes and the briefing slides. When I finally got to the proposal, (b)(5) , so I am planning on dedicating some time on Wed to provide input. I am not sure if the proposal is going to be ready for Randy's review. Has anyone else had an opportunity to add anything yesterday or today?

Subject: counterintelligence guidance
Good Morning Everyone,
If you've been calling into the weekly SIEO staff meetings, you've heard Randy talk about a pick-up project the program directors have been meeting about as well as working on a project proposal. Randy calls it a pick-up project because this would be the first of multiple projects crossing over multiple disciplines/divisions (Space, Intel, Engineering, SA). If not, I'll try to quickly bring you up to date as much as possible in an unclassified email. Over the years there have been multiple news reports as well as videos on the internet concerning Unidentified Aerial Phenomena (UAP). Last October, Randy, (b)(6) , (b)(6) and I met with the ONI working group lead to obtain some initial background information. Randy wants to move forward with a project proposal. The project would focus on what actions the DoD has taken, not on the working group. The program directors are meeting with Randy tomorrow after the staff meeting to finalize the proposal.
Randy has asked if (b)(5) . I said I would ask my staff if they had any counterintelligence experience and were aware of specific directives or instructions we could include in the proposal.
So, any thoughts? I'm available to discuss also.
Thanks.

Subject: Virtual Introductions
Good Afternoon,
I wanted to facilitate the virtual introduction since you both will be working on the UAP pickup project proposal. [redacted] is currently work with myself and the other SIEO PD's to draft the project proposal. [redacted] will be joining the team and will be able to assist in bring the proposal together. [redacted] can bring you up to speed on the planned project and the way forward based on our discussion with Randy Stone. If you all have any questions please do not hesitate to let me know.

Good talking to you yesterday and looking forward to getting together on Monday. Attached is a list of reference documents I've begun to compile; not sure the best place to hang it but I'm using it to catalog sources that cou ld potentially inform research planning for the future. If there's a better tracker or something I can role this into, please advise; otherwise I'll continue to build on this.
See you next week,
(b)(6)

Thanks for the catch. I will update the spreadsheet. We are planning to link up on the 14th floor, but I will also spend time on the 10th floor.

Ok check the sign-in sheet. I saw that you were signed up for 2nd floor access, not 10th floor. Is this correct?
